

# Affected By The Towns

Bill Wyman

It's a hard life  
People get affected  
By the towns they're in

She gave her man a chance  
Who never had a man  
Hard life  
Now she lives in Canter berry  
As long when she can  
Hard life

She fell in love and killed a mistress  
She was just a kid  
Hard life  
Until that first in ten months  
At least she said she didn't  
It's a hard life

Hope that baby, baby, it's a sin  
Never be a loser 'cause the losers never win

It's a hard life  
People get affected  
By the towns they're in

She dressed in leather  
When she went to Leatherhead  
Hard life  
And when she went to bed  
Thought she never went to bed  
Hard life

She said she went ahead  
And then she tried to get ahead  
Hard life  
Get her heading head and lay off  
I think that's what she said  
It's a hard life

Hope that baby, baby, it's a sin  
Never be a loser 'cause the losers never win

It's a hard life  
People get affected  
By the towns they're in

Money won't change her  
Money won't change her  
Money won't change her  
She's funny about money  
But money won't change her

Hope that baby, baby, it's a sin  
Never be a loser 'cause the losers never win

It's a hard life  
People get affected

By the towns they're in

We went to Sunnyland  
And never saw the sun  
Hard life  
And ended up in dungeons  
And it really isn't done  
Hard life

We had a week in Lester  
And liked it more or less  
Hard life  
And then we went to Preston  
And someone told the press  
It's a hard life

Hope that baby, baby, it's a sin  
Never be a loser 'cause the losers never win

It's a hard life  
People get affected  
By the towns they're in  
It's a hard life  
People get affected  
By the towns they're in

It's a hard life  
People get affected  
By the towns they're in  
It's a hard life  
People get affected  
By the towns they're in

It's a hard life  
People get affected
