

# Remember

Billie Holiday

Remember the night  
The night you said, "I love you", remember?  
Remember you vowed  
By all the stars above you, remember?

Remember we found a lonely spot  
And after I learned to care a lot  
You promised that you'd forget me not  
But you forgot to remember

Remember the night  
The night you said, "I love you", remember?  
Remember you vowed  
By all the stars above you, remember?

Remember we found a lonely spot  
And after I learned to care a lot  
You promised that you'd forget me not  
But you forgot to remember
