

Before Your Time

Billie Jo Spears

Not long ago I didn't know the feel of lips on mine
And I was halfway happy then but that was before your time
Then you came along and I found heaven but now you leave me alone

I was better off before your time than I'd be after you're gone

I was better off before your time when love I never known
For once someone's gonna use to love it's harder just being alone

Cause I found heaven in your arms and feeling I never known
I was better off before your time than I'd be after you're gone
Than I'd be after you're gone
