

Look Out Your Window

Billie Jo Spears

Look at your window a thousand miles away
Look at your window a thousand miles away
And you will see me and see that I am true
A thousand lonely days a million sleepless nights won't stop my
love for you

I remember the sad times I had to go from you
You said think of me often and every time you do
Look at your window

Yes I do think of you often it always brings me tears
And whenever I get lonely your gentle voice I hear
Look at your window
A thousand lonely days a million sleepless nights won't stop my
love for you
