

## Say It Again

Billie Jo Spears

Say it again, I don't think I heard you  
Say it again slowly this time  
I thought I heard the words "it's over"  
Followed by the word "goodbye"

Say it again, I just can't believe it  
Why I'd never hear a sad word from you  
You should be saying words like "forever"  
But say it again, and say it's not true

You should be saying words like forever  
But say it again, say it again  
But say it again and say it's not true
