

We Love Each Other

Billie Jo Spears

They ask me, how we do it'
And I tell them, we love each other
There's really nothing to it

It's easy, we love each other so
And we always will, and I know
We found it long ago, and now, it's sure
That it's the kind to last forever

They ask me, can we make it'
And I tell them, we love each other
If there's trouble, can we take it'

And I tell them, we love each other
More than we ever have before
And they should know
When they ask us, how we do it

We just tell them
We love each other so
We love each other
We love each other, more than we ever
