

# You And Your Sweet Love

Billie Jo Spears

I wish you only knew all the days I've made it through  
Because of you and your sweet love  
I wish that I could count the times peace and comfort filled my  
mind  
Because of you and your sweet love

You're what keeps me going the sun that lights my sky  
The rose that blooms in winter the rain that cools July  
Never try to tell me that it wasn't God above  
That sent me you and your sweet love

Almost every night it seems you come walking through my dreams  
Precious you and your sweet love  
And tonight though we're apart there's a fullness in my heart  
Thanks to you and your sweet love

You're the rock I cling to the star I wish upon  
The water in my desert the anchor in my storm  
Never try to tell me that it wasn't God above  
That sent me you and your sweet love  
That sent me you and your sweet love
