

You And Your Sweet Love

Billie Jo Spears

I wish you only knew all the days I've made it through
Because of you and your sweet love
I wish that I could count the times peace and comfort filled my
mind
Because of you and your sweet love

You're what keeps me going the sun that lights my sky
The rose that blooms in winter the rain that cools July
Never try to tell me that it wasn't God above
That sent me you and your sweet love

Almost every night it seems you come walking through my dreams
Precious you and your sweet love
And tonight though we're apart there's a fullness in my heart
Thanks to you and your sweet love

You're the rock I cling to the star I wish upon
The water in my desert the anchor in my storm
Never try to tell me that it wasn't God above
That sent me you and your sweet love
That sent me you and your sweet love
