

You Send Me Flying

Billie Myers

I don't want to make a habit of this
But seeing you is like getting a fix
Every time I kid myself
"I'll never do it again"

Definition of love on a cliff
A lemming has no alternative
I wanna die in your arms
That's my suicide wish

It's only 13 hours
Till I leave the ground
And I may never come down again
So will you meet me there
On a ride somewhere?
Just turn left at the sun before it sets
Let's go naked
Would you dare?

You
You send me flying
You send me flying
You send me flying
You're knocking me over

You
You send me flying
You send me flying
You send me flying
Flying
Over the moon for joy

I don't wanna make a fool of myself
'Specially since you're with someone else
Outwardly demure
I would die for you

You'll forgive my inclination to tell
I threw my wishes down your wishing well
I want you know
In a non too subtle way
You want me too?

So will you meet me there
On a ride somewhere?
Just turn right at the moon before it moves
Let's go naked
Would you dare?

You
You send me flying
You send me flying
You send me flying
You're knocking me over

You
You send me flying

You send me flying
You send me flying
Flying
Over the moon for joy

You send me flying
You send me flying
You send me flying

You
You send me flying
You send me flying
You send me flying
You're knocking me over

You
You send me flying
You send me flying
You send me flying
Flying
Over the moon for joy

Definition of love on a cliff
