

## From A Vauxhall Velox

Billy Bragg

She said "Do these seats fold down"  
I said "If you pull that handle"  
All the time she'd been waiting for  
Something with a little more  
And all her mates on the new estates  
Were walking out in confetti and sunshine

Her mother read her mail  
And her Dad was a Policeman  
Which I must say worried me  
But some things have just got to be  
So we passed very fast like ships in the night  
Or cars in a contraflow system

Some people say love is blind  
But I think that's just a bit short-sighted  
Some people just want it now  
It doesn't matter where or how  
Satisfaction takes a second place  
So long as they can get excited
