I Almost Killed You

You see a rainbow I see a dark cloud You see your new friends And I see a bad crowd

I almost killed you Nearly killed you Almost killed you with my love

I'll put a gun up to my head If you treat me this way Is it fake? Is it real? Are you feeling lucky today?

I almost killed you Nearly killed you Almost killed you with my love

Find a gypsy child who wouldn't be christened You just wouldn't listen The tune that you dance to is not of my making I can't countenance the steps that you're taking

I almost killed you Nearly killed you Almost killed you Nearly killed you
