

# I Keep Faith

Billy Bragg

If you want to make the weather  
Then you have to take the blame  
If sometimes dark clouds fill the sky  
And it starts to rain, folks complain

And though your head may tell you  
To run and hide  
Listen to your heart and you'll find me  
Right by your side, because

I keep faith, I keep faith  
I keep faith, I keep faith in you  
Yes, I do, I keep faith in you

If you think you have the answer  
Well, don't be surprised  
If what you say is met with anger  
And contempt and lies

No matter how hard you may want to  
Just walk away  
Reach out, you'll find me there beside you  
All of the way because

I keep faith, I keep faith  
I keep faith, I keep faith in you  
Yes, I do, I keep faith in you

All the dreams we shared  
I never knew no one who cared  
About these things the way that I've seen you  
It doesn't matter if this all falls off the cliff  
Together we are gonna see it through

I know it takes a mess of courage  
To go against the grain  
You have to make great sacrifice for such little gain  
And so much pain

And if your plans have come to nothing  
Washed out in the rain  
Let me rekindle all your hopes  
And help you start again because

I keep faith, I keep faith  
I keep faith, I keep faith in you  
Yes, I do, I keep faith in you  
I keep faith in you  
Yes, I do, I keep faith in you

I keep faith in you  
Yes, I do, I keep faith in you  
I keep faith in you  
Yes I do, I keep faith in you, yeah, yeah

I keep faith, I keep faith, I keep faith  
I keep faith
