

## Ontario, Quebec & Me

Billy Bragg

You don't need my Christmas cards  
You already have my heart  
This has been a holiday romance  
Right from the very start  
For we know how to spend the time  
Who cares about the weather  
We'll dance in the town till the sun goes down  
And push our beds together  
From the land of the midnight sunglasses  
To the mountains of the moon  
You could never stay a day too long  
Nor never come back too soon  
And you know what a fool I am  
With my short attention span  
Flying in the rainy season too,  
Nothing can keep me away from you
