

# She's Got A New Spell

Billy Bragg

What is that sound?  
Where is it coming from?  
All around  
What are you running from?

Something you don't understand  
Something you cannot command  
That's how I know  
She's got a new spell

Yes, that's how I know  
That she's got a new spell  
What's going down?  
Who's moved this room from round me?

Where has it gone?  
I fear this night will drown me  
So I lie awake all night  
'Cause I can't sleep with something I can't fight

The laws of gravity are very, very strict  
And you're just bending them for your own benefit  
One minute she says  
She's gone to get the cat in

The next thing I know  
She's mumbling in Latin  
She cut the stars out of the sky  
And baked them in a pie

She stole the scene and scenery  
The script and the machinery
