

# Your Name On My Tongue

Billy Bragg

I heard the bell ringing  
In tower of last desire  
Crum fumb small beginnings  
The living world undone  
Now it hums that is singing  
Like words out on the wire  
They don't like surrender  
Your name on my tongue

Grief was my companion  
It pushed me like a seed  
Compass blade at my fool  
Pointing up to the sun  
Fear bears a strange courage  
It's a whole conspiracy  
The troops kneel down the path  
Your name on my tongue  
Your name on my tongue  
Your name on my tongue  
Your name on my tongue

Get up, get up, fix it up, no time  
Get up, fix it, fix it up, no time  
Get up, get up, fix it up, no time  
Get up, fix it, fix it up, no time

Cause I'm still in love, yeah I'm still in love  
I've set out a table, I've made up my bed  
Ceiling above my head, the floor down  
But I've barely been able  
To hold my own on my peace  
But I'll never let go,  
Your name on my tongue  
Your name on my tongue  
Your name on my tongue  
Your name on my tongue.
