

# Higher Than High

Billy Crawford

Come with me, take it high, yeah  
(Higher than high)  
Let's take it to the top, ah

I missed the plain today  
It doesn't matter  
My phone it rang a dozen times  
But no one was there  
Tick tack, tick tack, my watch stopped  
It doesn't matter  
Go with a fault and don't despair

It's such a struggle  
Just to let it all go by  
But let it happen  
It's all so clear

Chorus:

Higher than high  
Don't lose a feeling  
Gonna stretch my wings beyond the sky  
I don't need a reason  
Higher than high  
We've had enough confusion  
Carry me back, carry me back  
Please take me back

I had a date today  
It doesn't matter  
I made a point to be on time  
But no one was there  
I'm on a mountain top  
It doesn't matter  
Just settled back and don't be scared

It's such a struggle  
Just to let it all go by  
But let it happen  
It's all so clear

Chorus

Don't sit at home alone  
Follow the stars ahead  
Maybe you have some doubts  
Or maybe it's just the feeling  
To let it go, let go...

Girl: Hello?

Billy: Hello.

Girl: Hey, who's this?

Billy: It's Billy.

Girl: Oh, hey Billy. What's up?

Billy: Not much. Why didn't you come to the party last night?

Girl: I had things to do, Billy.

Billy: Can we talk or something, you know... I mean...

Girl: No, Billy. I gotta go.

Billy: Oh...

Girl: See ya.

Billy: Bye...

Chorus (2x)
