

Part Of Me

Billy Crawford

I love you so much...

Part of me, wants to take the world upon my shoulders
Part of me, wants to run around for four leaf clovers
How could it be, that I should want these totally different things

Hmm..

You see a part of me that's safe from harm
Can hear a future calling far away
I'm trying to say
That a change is coming, we both know
And I don't know which way to go, which way to go

+ chorus +

Part of me is so in love
There's a fit between us like a glove
But we're so young with so much time
Waiting for tomorrow's rise
Part of me is so naive
I believe that we can stay this free
But deep inside I need to go
The world ahead is calling part of me

I remember all the joys and trouble we have been through
(Part of me) Wants to stick around to mend those broken wound
(We both know) Even though we fight, we're running out of time
The world goes on and despite our cry
To stop a moment, once before we die
You can't deny
That the earth is spinning round and round
And where it stops I will be found, I will be found

+ chorus +

The earth is spinning round and round and round
And where it stops I will be found, It will be found

Yeah, ooh...

+ chorus +

I feel a change is coming, we both know
And I don't know which way to go, which way to go...
