Come here girl I got a bottle of wine We can pass it around till we're feeling fine and crazy Mmmm hmmmm

Been a long day let your hair fall down We can dance for a while Lay A- round and be lazy Mmmm hmmm

We love all night yeah baby Sure feels good when ya take me In your arms Oh and then we start

We kiss like first time lovers

Tangled up in the covers

Lets get it on

Love me all night, make me miss ya all day long

Gimme a look with your bedroom eyes Gonna lock it away up in my mind For a daydream Mmm hmmmmm

Well come on girl, come off of that sugar Take my hand baby now would ya lay me down

We love all night yeah baby

Sure feels good when ya take me in your arms Ohh and then we start

We kiss like first time lovers

Tangled up in the covers

Lets get it on

Love me all night, make me miss ya all day long

Tomorrow I'll be watching that clock On the wall Till we pick back up Right where we left off

Love all night yeah baby
Sure feels good when ya take me, in your arms
Ohhh and then we start
We kiss like 1st time lovers
Tangled up in the covers
Lets get it on
Love me all night make me miss ya all day long

All day long baby (all day long)
All day long (all day long)
