

Don't It

Billy Currington

Baby don't say no so quick
This ain't about me trying to see how far that I can get
But ain't gonna lie, wouldn't mind just a little bit of you and I
Eye to eye, lips on lips, swaying to the music real close
We can both use a little let go kind of night

Baby if you want a good time we can get on it
Just take a shot or you can sip on it
Find a floor, we can dance on it, slow song it
Far as I can tell that finger ain't got no ring on it
So come on, baby bring on it
It's one of those stars forming, love calling
Get you feeling alright tonight
That sounds good, don't it, don't it?
Every little thing you got you know that I want it, want it
Sounds pretty good, don't it?

Well I just now seen that smile
And I bet it's been a minute
Since you tapped on into that wild and crazy side
So baby let's do this tonight
Baby, that moon looks just right, but don't fight it

If you want a good time we can get on it
Just take a shot or you can sip on it
Find a floor, we can dance on it, slow song it
Far as I can tell that finger ain't got no ring on it
So come on, baby bring on it
It's one of those stars forming, love calling
Get you feeling alright tonight
That sounds good, don't it, don't it?
Every little thing you got you know that I want it, want it
Sounds pretty good, don't it?

So baby let's get on it
You're gonna love it, you can bet on it
Karaoke, we can microphone it, whatever you want
Far as I can tell that finger ain't got no ring on it
So come on, baby bring on it
It's one of those stars forming, love calling
Get you feeling alright tonight
That sounds good, don't it, don't it?
Every little thing you got you know that I want it, want it
That sounds pretty good now, don't it?

Get you feelin alright girl
That sounds pretty good now, don't it?
