

# I Got a Feelin'

Billy Currington

I don't wanna rush this thing  
I don't wanna jump the gun  
I really wanna say those three little words  
But I'm gonna bite my tongue

Yeah, I'm just gonna lay on back  
Leave it on cruise control  
I'm gonna hold it all inside  
Till the right time comes down the road

I got a feelin'  
My head's a reelin'  
My heart is screamin'  
I'm about to bust loose  
Bottled up emotion  
It's more than a notion  
It starts with an "I"  
And ends with a "U"  
I got a feelin'  
Are you feelin' it too

I guess I've all but said it now  
So much for hopin' you'd go first  
Don't leave me hangin' out here on a line  
Baby, it's your turn  
Say you couldn't sleep last night  
Swore that you could feel me breathe  
Had you wantin' me there by your side  
Yeah, baby I know what you mean

I got a feelin'  
My heads a reelin'  
My heart is screemin'  
I'm about to bust loose  
Bottled up emotion  
It's more than a notion  
It starts with an "I"  
And ends with a "U"  
I get a feelin'  
You're feelin' it too

Bottle up emotion  
It's more than a notion  
It starts with an "I"  
And ends with a "U"  
I got a feelin'  
You're feelin' it too  
You're feelin' it too  
Yeah, you're feelin' it too  
Feelin' it too  
Oh, Yeah
