

Tangled Up

Billy Currington

Touch me
Tell me what you want me to do
I want
To take a little trip around you
You set me on fire
Ohhhh you set me on fire

Light me up inside of this room
I just wanna be close to you
I cant take it anymore
Baby I want you so much
I wanna feel your breath on my skin
Find that place we've never been
I wanna spend all night
Tangled up
In your love

Kiss me
Kiss me till the sun comes up
Slow, sweet
I can never get enough of your love
Youre taking me higher
Ohhh youre taking me higher

Yeah light me up inside of this room
I just wanna be close to you
I cant take it anymore
Baby I want you so much
I wanna feel your breath on my skin
Find that place we've never been
I wanna spend all night
Tangled up
In your love

Yeah

Yeah light me up inside of this room
I just wanna be close to you
I cant take it anymore
Baby I want you so much
I wanna feel your breath on my skin
Find that place we've never been
I wanna spend all night
Tangled up
In your love

Tangled up in your love
Tangled up in your love

Tangled up in your bed
Tangled up in your sheets
Tangled up in your head
Tangled up in your love

Tangled up in your love
