Oh Colette  
Half past eight  
Don't be late  
Don't forget we have a date Colette  
How I love you Colette  
Oh be on time and say your mine Colette  
Believe me honey when I say  
I think about you night and day Colette  
How I need you Colette  
Don't let us part you'll break my heart Colette  
So you're walking close by  
Didn't start talking cause I was so shy  
Then you looked into my eyes  
Don't whisper any goody byes  
Colette Colette  
Don't forget Colette  
I need you so don't ever go colette  
Half past nine in on time guess you played me down the line  
Colette how I love you Colette  
You broke the vow im lonely now Colette  
You broke the vow im lonely now Colette  
You broke the vow im lonely now Colette
