

# Body Snatcher

Billy Idol

Full moon glow  
Steals the light  
When headless horsemen ride  
In the distance hellhounds cry  
And banshee wails arise  
Turn your fear into fantasy  
Concealing all the pain  
You the victim of perfection  
The dark side gets its way  
The dark side gets its way

Ain't no use singing the blues  
Ain't to one finding no clues  
And you can't walk away  
No stopping, no escape

Tired eyes you cannot fight  
The body snatcher comes tonight  
Wired mind embraced the sight  
The body snatcher comes tonight

Creeping shadows cross the walls  
What are they trying to say?  
Lucy Love died in this place  
I've come to take you away  
Turn the spirit when you sleep  
And leave an empty space  
I'm the demon of destruction  
The gods have now been swayed  
The gods have now been swayed

Ain't no use singing the blues  
Ain't no one finding no clues  
And you can't walk away  
No stopping, no escape

Tired eyes you cannot fight  
The body snatcher comes tonight  
Wired mind embraced the sight  
The body snatcher comes tonight

Well you cannot run you cannot hide  
'Cos evil has its dark design  
You cannot run you cannot hide  
'Cos evil has its dark design

I have reason to believe  
There's power in the signs  
Look she turns ghostly grey  
The dark one has arrived

Tired eyes you cannot fight  
The body snatcher comes tonight  
Wired mind embraced the sight  
The body snatcher comes tonight

Well you cannot run you cannot hide

'Cos evil has its dark design

The body snatcher comes tonight  
Yeah yeah yeah

Yeah you cannot run you cannot hide

Cos evil has its dark design

The body snatcher comes tonight

Ain't to use singing the blues  
Ain't no one finding no clues  
And you can't walk away  
No stopping, no escape
