Body Snatcher

Full moon glow Steals the light When headless horsemen ride In the distance hellhounds cry And banshee wails arise Turn your fear into fantasy Concealing all the pain You the victim of perfection The dark side gets its way The dark side gets its way

Ain't no use singing the blues Ain't to one finding no clues And you can't walk away No stopping, no escape

Tired eyes you cannot fight The body snatcher comes tonight Wired mind embraced the sight The body snatcher comes tonight

Creeping shadows cross the walls What are they trying to say? Lucy Love died in this place I've come to take you away Turn the spirit when you sleep And leave an empty space I'm the demon of destruction The gods have now been swayed The gods have now been swayed

Ain't no use singing the blues Ain't no one finding no clues And you can't walk away No stopping, no escape

Tired eyes you cannot fight The body snatcher comes tonight Wired mind embraced the sight The body snatcher comes tonight

Well you cannot run you cannot hide 'Cos evil has its dark design You cannot run you cannot hide 'Cos evil has its dark design

I have reason to believe There's power in the signs Look she turns ghostly grey The dark one has arrived

Tired eyes you cannot fight The body snatcher comes tonight Wired mind embraced the sight The body snatcher comes tonight

Well you cannot run you cannot hide

'Cos evil has its dark design

The body snatcher comes tonight Yeah yeah yeah

Yeah you cannot run you cannot hide

Cos evil has its dark design

The body snatcher comes tonight

Ain't to use singing the blues Ain't no one finding no clues And you can't walk away No stopping, no escape
