

New Future Weapon

Billy Idol

With a 180 miles,
you can press my button to see.
Faster than the night fire,
I can make you bleed.
On stealth and undercover
You don't even know I'm there.
I can kill all of you, you better beware....

It's the dawn of a new future weapon,
I'm after your soul,
I'm after your soul.
It's surprise, speed and violence of action,
I'm at the controls,
death at the controls.

Higher than a mile, my weaponology.
I can take you out babe, with pinpoint accuracy.
Riding in the raptor,
danger to the max.
Shoot you if you're flying by,
the power of my attack.

It's the dawn of a new future weapon,
I'm after your soul,
I'm after your soul.
It's surprise, speed and violence of action,
I'm at the controls,
death at the controls.

Living in this desert, living in slime,
the air you breath is poisonous fire.
The sounds you hear, destroy the tune.
The sounds you hear. destroy the... "whoa yeah".

With a 180 miles,
you can press my button to see.
Faster than the night fire,
I can make you bleed.

It's the dawn of a new future weapon,
I'm after your soul,
I'm after your soul.
It's surprise, speed and violence of action,
I'm at the controls,
death at the controls.

I'm at the controls,
I'm after your soul "yeah",
"Oh ye-eah",
I'm at the controls
I'm after your soul...
