

## I'm In Love

Billy Joe Shaver

From the dimness of night I have awakened to my vanity  
Oh, why have I all these years suffered this insanity?  
Thank God I can feel you really live inside me  
I'm in love, I'm in love

Oh, the first and the last and the only time  
I've ever been born again, and the cold is finally severed  
I am free to begin the beginning of forever  
I'm in love, I'm in love

I'm in love, I'm in love and I know I know I know  
I know it, you're the angel of life  
You have sung the sea and grown it  
For the rest of my life, I can never keep from glowing  
I'm in love, I'm in love

I'm in love, I'm in love and I know I know I know  
I know it, you're the angel of life  
You have sung the sea and grown it  
For the rest of my life, I can never keep from glowing  
I'm in love, I'm in love  
I'm in love, I'm in love
