

# C'était Toi (You Were the One)

Billy Joel

Here I am again  
In this smoky place  
With my brandy eyes  
I'm talking to myself  
You were the one  
You were the one

Here I go again  
Looking for your face  
And I realize  
That I should look for someone else  
But you were the one  
You were the one

I'm looking for comfort  
That I can take  
From someone else  
But after all  
I know there is no one  
That can save me from myself  
You were the only one

Me revoici  
Dans ce bar enfume  
Avec mes yeux iures  
Je me parle a moi meme  
C'etait toi  
C'etait toi

Me revoici  
Cherchant ton visage  
Et je realise  
Que je devrais en chercher une autre  
C'etait toi  
You were the one

Je recherche l'affection  
Qu'une autre pourrait me donner  
Mais apres tout  
Je sais qu'il n'y a personne  
Personne qui puisse me sauver  
Tu etais la seule

I'm looking for comfort  
That I can take  
From someone else  
But after al  
I know there is no one  
That can save me, save me from myself  
You were the only one
