## **I Wrote A Simple Song**

## **Billy Preston**

I wrote a simple song
With simple words and harmony
Wasn't very long
Before a star, I was bound to be

I didn't care if it made the charts
I only wrote it for you and me
They think they're so smart now
They're not as smart as they want to be

They took my simple song, yes, they did They changed the words and the melody Made it all sound wrong, yeah Now it sounds like a symphony

Who told them to mess with my Oh, now, who gave them the right I wanna know now That song was personal

Because I wrote it for you It's yours and mine, girl

I don't care if it Makes the charts, y'all, no I only wrote it for you and me

They think they're so smart Yes, they do They're not as smart As they want to be

Who told them to mess with my Oh, now, who gave them the right I wanna know
That song was personal

Whoa, I wrote it for you It's yours and mine

Yeah, yeah, oh, oh
