

How Much

Billy Ray Cyrus

One candle burns brightly, it flickers and it almost dies like me
Alone against the wind
But this moment has magic, it's keeping that flame alive
As we hold on to the night

There'll be another day, we'll have another chance
But not like this, no, nothing can compare
To the way that I feel right now
Do you feel the same way I do? Tell me

How strong, how strong do you want it to be?
How do, how do you wanna hear it from me?
How long, how long, and baby, tell me how deep?
How much love do you want from me?

Somebody must have scared you
Left you wounded and afraid to love again
You are just like me
'Cause nobody ever held me so close, so desperately
And I, I never held anybody like you

There'll be another day, we'll have another chance
But not like this, no, nothing can compare
To the way that I feel right now
Do you feel the same way I do? Tell me

How strong, how strong do you want it to be?
How do, how do you wanna hear it from me?
How long, how long, and baby, tell me how deep?
How much love do you want from me?
How much love do you want from me?

One tender moment is all I need
This world's gone crazy, baby
Shelter me, you gotta shelter me

There'll be another day, we'll have another chance
But not like this, no, nothing can compare
To the way that I feel right now
Do you feel the same way I do? Tell me

How strong, how strong do you want it to be?
How do, how do you wanna hear it from me?
How long, how long, and baby, tell me how deep?
How much love do you want from me?

How strong, how strong do you want it to be?
How do, how do you wanna hear it from me?
How long, how long, and baby, tell me how deep?
How much love do you want from me?
How much love do you want from me?

How much? How much?
How much love do you want from me?
