

Keep the Light On

Billy Ray Cyrus

Everybody's on their own track
There ain't one road, there ain't one map
Come on, keep the light on

Been gone so long, my jeans are faded
I've seen this world, man, it's overrated
Come on, keep the light on

'Cause I'm coming home tonight
Yeah, I'm coming home tonight

Put on that dress, the red one I gave you
Let's spend all night getting reacquainted
Come on, keep the light on

We'll call the boys, tell 'em all I'm coming
This soldier's rockin', get that jukebox a-humming
Come on, keep the light on

'Cause I'm coming home tonight
Yeah, I'm coming home tonight

Now is the time, let's take a chance
Let's take the world by the seat of its pants
Let's make some noise, let's make it last
Just give me a sign, baby, keep the light on

Let's shake the stands and wake the nation
I'm rounding third and I'm coming home
Come on, keep the light on

We'll call my folks and call the papers
I'm on my way, this time I'm staying
Come on, keep the light on

'Cause I'm coming home tonight
Yeah, I'm coming home tonight

Now is the time, let's take a chance
Let's take the world by the seat of its pants
Let's make some noise, let's make it last
Just give me a sign, baby, keep the light on
Keep the light on
