

## Keep the Light On

Billy Ray Cyrus

Everybody's on their own track  
There ain't one road, there ain't one map  
Come on, keep the light on

Been gone so long, my jeans are faded  
I've seen this world, man, it's overrated  
Come on, keep the light on

'Cause I'm coming home tonight  
Yeah, I'm coming home tonight

Put on that dress, the red one I gave you  
Let's spend all night getting reacquainted  
Come on, keep the light on

We'll call the boys, tell 'em all I'm coming  
This soldier's rockin', get that jukebox a-humming  
Come on, keep the light on

'Cause I'm coming home tonight  
Yeah, I'm coming home tonight

Now is the time, let's take a chance  
Let's take the world by the seat of its pants  
Let's make some noise, let's make it last  
Just give me a sign, baby, keep the light on

Let's shake the stands and wake the nation  
I'm rounding third and I'm coming home  
Come on, keep the light on

We'll call my folks and call the papers  
I'm on my way, this time I'm staying  
Come on, keep the light on

'Cause I'm coming home tonight  
Yeah, I'm coming home tonight

Now is the time, let's take a chance  
Let's take the world by the seat of its pants  
Let's make some noise, let's make it last  
Just give me a sign, baby, keep the light on  
Keep the light on
