## **Keep the Light On**

**Billy Ray Cyrus** 

Everybody's on their own track There ain't one road, there ain't one map Come on, keep the light on

Been gone so long, my jeans are faded I've seen this world, man, it's overrated Come on, keep the light on

'Cause I'm coming home tonight Yeah, I'm coming home tonight

Put on that dress, the red one I gave you Let's spend all night getting reacquainted Come on, keep the light on

We'll call the boys, tell 'em all I'm coming This soldier's rockin', get that jukebox a-humming Come on, keep the light on

'Cause I'm coming home tonight Yeah, I'm coming home tonight

Now is the time, let's take a chance Let's take the world by the seat of its pants Let's make some noise, let's make it last Just give me a sign, baby, keep the light on

Let's shake the stands and wake the nation I'm rounding third and I'm coming home Come on, keep the light on

We'll call my folks and call the papers I'm on my way, this time I'm staying Come on, keep the light on

'Cause I'm coming home tonight Yeah, I'm coming home tonight

Now is the time, let's take a chance Let's take the world by the seat of its pants Let's make some noise, let's make it last Just give me a sign, baby, keep the light on Keep the light on
