

# My Everything

Billy Ray Cyrus

Oh, how I love you  
And I always will  
Forever and ever  
Till times standing still  
Know that your with me  
Like the air that I breathe  
I'll be beside you  
And fight for your dreams

Cause you are my everything  
Everything I am because of you  
You are my sunshine, my wind and my rain  
You are my everything

All of my sorrow has been washed away  
All my tomorrows are with you today  
Someone would ask me  
Son, what is your dream  
I'd show them your picture  
And smile at a dream

Cause you are my everything  
Everything I am because of you  
You are my sunshine, my wind and my rain  
You are my everything  
You are my everything  
You are my everything  
My everything
