

# She Don't Love Me (She Don't Hate Me)

Billy Ray Cyrus

If I'd a seen her comin'  
I'd a prob'ly tried to hide  
But I came around the corner  
She caught me by surprise

There was no ice cold shoulder  
There was no ugly scene  
She smiled and didn't say the things  
I thought she'd say to me

Well, it was nothin' like that rainy night  
She left and slammed the door  
Not only she don't love me  
She don't hate me anymore

Well, I felt like some old neighbor  
Just some guy that she once knew  
You'd never know she loved me  
And I broke her heart in two

Was she hidin' her emotions  
Did she really get that strong  
Right then she turned and introduced me  
To her new friend Garth

And I could tell the way he shook my hand  
He'd never heard of me before  
Not only she don't love me  
She don't hate me anymore

No, there was no ice cold shoulder  
And there was no ugly scene  
She just smiled and didn't say the things  
I just knew she'd say to me

Yeah, she got so caught up in him  
My memory's gone I know  
Not only she don't love me  
She don't hate me anymore

And I know it might sound crazy  
And I don't know what hurts me more  
Is it the fact that she don't love me  
She don't hate me anymore

Not only she don't love me  
She don't hate me anymore
