

All Night Long

Billy Squier

I get up I run through the world like a fire
Heat it up I swim in the flames of desire
Chase it if you care take it if you dare it's there in the air
Answer to the gun--dance in the sun run boy run
Run for your life you're movin' on and on
The art of survival is turnin' me on

And I'll be chasin' it all night long (don'tcha wanna live)

I get out I roam through the streets like a tiger
Let it out I swing like a bird on a wire
Everywhere you go everybody knows oh don'tcha know
Everythin' you do anybody new--they're all on to you
Fight for your life turn it all around
The art of survival isn't gettin' me down
