## All Night Long

**Billy Squier** 

I get up I run through the world like a fire Heat it up I swim in the flames of desire Chase it if you care take it if you dare it's there in the air Answer to the gun--dance in the sun run boy run Run for your life you're movin' on and on The art of survival is turnin' me on

And I'll be chasin' it all night long (don'tcha wanna live)

I get out I roam through the streets like a tiger Let it out I swing like a bird on a wire Everywhere you go everybody knows oh don'tcha know Everythin' you do anybody new--they're all on to you Fight for your life turn it all around The art of survival isn't gettin' me down
