

# Break The Silence

**Billy Squier**

Turn through the pages back in your life  
The world in changes got you under the knife  
It don't turn easy no matter what you say  
You go 'round crazy you throw it all away

Lost in action...torn and tired  
Cool talkin' when your face is on fire  
Scarred romances...cast away  
Rollin' stoned don't turn away

Break the silence  
Send a message a message of love

Lost through the ages back in your mind  
You know what's yours...can you tell me what's mine  
Old man trouble come knockin' at your door  
He run you in circles throw you down on the floor

Crimes of passion...paranoid  
Showdown now it's search and destroy  
Close relations and gagged  
Share the news don't turn away

Break the silence  
Send a message a message of love

Heads and shoulders...ball and chain  
Don't charge me when I try to explain  
Reputations modern jivers  
Gentle souls all break the silence

Break the silence  
Send a message a message of love
