

# Can't Get Next To You

**Billy Squier**

Say I can't get next to you  
Doesn't matter what can I do  
You charge me up and wring me through  
No I can't get next to you

I feel the heat...you turn it on  
I feel the beat poundin'  
You make me weak...you trip me up  
I feel my heart boundin'  
Make it so hard on me  
Make me too blind to see  
Turn on your light...make it so right  
Don't leave me lonely...I get so lonely

Say I can't get next to you  
Doesn't matter --what I do  
You won't deliver and I can't get through  
No I can't get next to you

I climb the walls you're buildin' up  
I find your halls alarmin'  
You know my weakness...you suck it up  
Take my heart and chuck it  
Gimme one chance to see  
Gimme one dance for free  
Gimme one night...make it so right  
Don't leave me lonely...I get so lonely
