

# Don't Say No

Billy Squier

We live in confusion times---my world is a vice  
Nobody gets out alive...but you can break through the ice  
Don't say no

My wounds are the open kind---I bleed every day  
I pray for a change of mind...you could take me away  
Don't say no

Take on the system, playin' on the wrong side  
Spend all my money tryin' to have a good time  
Come 'round to see you from time to time  
Week in the knees and I'm busted

Some people they treat me kind...some drive me away  
Some people they blow your mind...it's not easy today  
Don't say no

I live on the borderline...you come from the void  
I beg you to cross the line...you take good care of your boy  
Don't say no

Got me a ticket sittin' on a gold mine  
Send me the int'rest, take me where the sun shines  
Come 'round to see me from time to time  
Bring it to me when I'm busted

One minute I'm outa time...I don't fit in your game  
You kill me in overtime...I don't remember my name  
One minute you're on my mind...next minute you're gone  
You tell me to read the signs...they tell me we're on  
Don't say no...
