

Eye On You

Billy Squier

I watch you on the tv you're with me every place I go
I'm caught up in the daydream--I'm into everyone you know
Turn on the action grab every minute
Learn every lesson then live to regret it
I'm so distracted my mind's disengaged
Sharin' the moments when you're all the rage
I got my eyes on you
Got my eye on you...

Those overnight conditions always get the best of you
You're fuelin' my suspicions I'm taken by the sneak preview
You got the numbers you got no limits
One day you're out but the next day you're in it
You find the answers you know what to say
Give us our reasons for livin' today
I got my eyes on you
Got my eye on you...

We share the laughter and pain when you're in it
Bring on disaster cause we know you'll win it
We're all believers watch what you say
Turn on those feelin's I can't look away
I got my eyes on you
Got my eye on you
