

Hand-Me-Downs

Billy Squier

Look to your left look to your right
Look to yourself look for a fight
If looks could kill, I'd be dead on sight
Oo yea you're dynamite
Pushin' yourself think you're so nice
Foolin' yourself never think twice
Everything goes me on ice
You kind of love cuts me down like a knife
I see your demons marchin' into my life

Don't want your hand-me-downs

Play it all wrong say it's all right
Play it too strong play it too tight
Take it too far--do it in spite
Oo yea you're such a fright
(spirit lives on) in the past
(passion ignites) you been movin'
(movers move on) much too fast
(soldiers must fight) shakin' me up move to indict
We're bound to lose when you start to fight

I see your secrets steppin' into the light

Don't want your hand-me-downs

Say it's all wrong say it's good night
Say it's so long--take a big bite
Say what you will--say it just right
Oo yea--get out of sight
(gonna hang tough) oo yea
(gonna hang tight) should I lose ya
(ya wanna play rough) I don't care
(we'll do it up right)
I read the news...i seen the light
I got to move when the time is right
Get me my ticket and I'm outa sight

Don't want your hand-me-downs

Look to your left--look to your right
