

# Lady With A Tenor Sax

Billy Squier

I been fakin' my past...  
But now I know my connection is comin' through  
I put my ass on the line when you walk by...  
Hey--so what's new

Don't look now she's inchin' up behind  
Don't look now in the creases of your mind  
Don't stop now...we're movin' much too fast  
Gonna find out where you draw the line  
Here she come now...she tunes so fine

There's a lady with a tenor sax  
Cool baby drives a mean Cadillac  
Lady with a tenor sax  
You gotta meet her on her own level--don't look back  
Don't look back...don't look back  
Cause she's right behind you with a tenor sax

She jives, she's so bad  
She's a tango with a big, big business sense  
She wind you up--but could I know her better...  
But if you wanna buy--get off the fence

Don't walk now...you'll slip into the past  
Don't walk now...can nothin' ever last  
Don't look now...the chips are gonna fall  
Sooner or later you're gonna be mine  
Here she come now, oh yeah yeah

She's a lady with a tenor sax  
She call your number, put your face on the map  
Lady with a tenor sax  
She make the cool walk

She's a lady with a tenor sax  
When you find what you're after there'll be no turnin' back  
Lady with a tenor sax  
They say she know why--I think she know, think she know, yea

Don't walk now...you'll slip into the past  
Don't walk now...can nothin' ever last  
Don't look now...the chips are gonna fall  
Sooner or later you're gonna be mine  
Here she come now, oh yeah yeah

She's a lady with a tenor sax  
In a room full of precedent she's leader of the pack  
Lady with a tenor sax  
She know why...she know why...she know

She's a lady with a tenor sax  
Soul baby cuts a groove on her back  
Lady with a tenor sax...
