

## More than words can say

Billy Squier

More than words can say  
or the sweetest song that I can play  
More than words can say  
I love you now  
More than you may know  
from the simple ways I try to show you  
More than words can say  
I love you now  
They can take you where they want  
Will they bring you back  
They can give you what they want  
They can't give you everything  
Walkin' down the road  
far away from home  
Many miles to go  
but it's all right  
So much work to do  
before my day is through  
But when I think of you  
my spirits fly  
They can hurt you if they want  
How are you to know  
Desert you when you need them most  
I will be there constantly  
More than words can say  
or the sweetest song that I can play  
More than words can say...  
But if I can't reach you now  
what am I to do  
If I can't reach you now  
I will reach out constantly  
More than words can say  
or the sweetest song that I can play  
More than words can say  
try hard as I may  
More than words can say  
more with every passing day  
More than words can say  
I love you now
