

Music's all right

Billy Squier

Now I know, that life can be unkind
I know, that love is hard to find
When I'm breakin' down inside I know
Oh I know, I know that if I don't despair
I know, that there's a world out there
Somethin' tells me down inside, I know, oh I know

That the music's all right
Say the music's all right
The music's all right wherever I go

Now I know that friends can let you down
I know, we all been passed around
When I need a place to hide, I know
Yes I know

That the music's all right
Say the music's all right
The music's all right wherever I go
Say the music's all right
Say the music's all right
The music's all right wherever I go

Now I know that when my hope is gone
I know, that I can carry on
I go searchin' down inside, I know
Oh I know, I know, I know

That the music's all right
Say the music's all right
The music's all right wherever I go, oh I know, I know, I know
Say the music's all right
Say the music's all right
The music's all right wherever I go
