My Kinda Lover

Billy Squier

You got me runnin' baby You give me somethin' way beyond revenue You put the magic in me I feel the magic when we do what we do And oh I can't do without you for too long You're my situation You're my kinda lover

You keep me all together You take me out whenever I'm lettin' down You got the motions baby I got a notion maybe I'll stick around And oh I can never doubt you for too long I can't see no reason You're my kinda lover

When you come 'round I never get down I fly across the floor I can see you comin' on me And I can't ask for more Rock me, sock me Baby you got me ridin' to the end Rake me, shake me Baby you make me turn me on again

You got my motor racin' I find my thoughts embracin' your every move I wanna set you reelin' I wanna make you feel the way that I do And oh I been thinkin' 'bout you for so long I don't wanna lose ya You're my kinda lover
