Rock Out / Punch Somebody

Billy Squier

Say 'hey everybody rock out
Wind me up I might punch somebody
Rock rock out
Switch me off I might hurt someone
Rock rock out
Turn me on I wanna love somebody
Rock rock out
Lead me on I'll break into your life

You come 'round, waltzin' into my life
Think that I'm your fool and I need ya
Fill my head with your stolen advice
Now ya don't play cool--how I read ya
Now you're tumblin' baby through a violent scene
Can ya feel me comin you won't catch me

Rock rock out
Wind me up I might punch somebody
Rock rock out
Switch me off I might hurt someone
Rock rock out
Turn me on I wanna touch somebody
Rock rock out
Lead me on I'll break into your life

I don't care how ya do me this time
Now you've gone too far I don't need ya
Years ago you could keep me in line
Now I'm not your star
It's a split-screen baby are you wrong or right
Do ya run for cover when they turn out the lights

Through the sound and fury does it feel like love
Are ya true now
Darlin fist in glove pla
