

Young Girls

Billy Squier

I could love you where you lie whatcha want me to do
You don't even have to try always somebody new
Never sure what your talkin' about
Never wantin' to be left out

Cause you're a live wire but you've lots to learn
Live wire your fuse will burn

Young girls you talk so loud
Move fast now you act so proud
Young girls ya talk so bold
You wont find much when you get old

Livin' in the past is so easy to do
Ah but nothin' seems to last you can never be true
Now you talk of all those places you've been
All along you been makin' the scene

Cause you're a live wire but you don't understand
I ain't your ticket to to the promised land

Young girls you talk so loud
Move fast now you act so proud
Young girls you talk so bold
You won't find much when you get old

Every woman in her time's known a young girl like you
Though she may be hard to find there's a woman in you
Come and see me when you've grown a few years
Come the time you'll be changin' your gears

Cause your a live wire but you don't understand
I ain't your ticket to a one night stand
