

# Diamond on a Landmine

Billy Talent

Slapped my face, slammed the door  
A dozen roses lay on the floor  
I saw her friends and I was told  
She blocked my number from her cellphone

You said we were meant to be  
Now this obsession is killing me  
Until I have a heart attack  
I'll keep on trying to win you back

Alone at last  
I can't wait 'til we're alone at last  
All I wanted was a second chance  
Second chance to hold you in my arms at last

Forever, forever  
I'll walk a thousand miles  
Just to tell her, to tell her  
Our love is still alive

And I'll never, I'll never  
I'll never let it die  
Well, you'd better watch your step  
She's a diamond on a landmine

I'm not so sure about this word  
But she kept calling me insecure  
I tried to quit but there's no use  
'Cause I'm addicted to her abuse

She's in control of everything  
I'm just a puppet, she pulls my strings  
Denying truth, I'll test my fate  
I'll keep on playing this wicked game

Alone at last  
I can't wait 'till we're alone at last  
All I wanted was a second chance  
Second chance to hold you in my arms at last

Forever, forever  
I'll walk a thousand miles  
Just to tell her, to tell her  
Our love is still alive

And I'll never, I'll never  
I'll never let it die  
Well, you'd better watch your step  
She's a diamond on a landmine

You'd better watch your step  
She's a diamond on a landmine  
You'd better watch your step  
She's a diamond on a landmine  
Waiting to explode

We're dancing on thin ice before

Frozen from the winter's cold  
And if it were to crack below  
I'd never let you go

Alone at last  
I can't wait 'till we're alone at last  
All I wanted was a second chance  
Second chance to hold you in my arms at last

Forever, forever  
I'll walk a thousand miles  
Just to tell her, to tell her  
Our love is still alive

And I'll never, I'll never  
I'll never let it die  
Well, you'd better watch your step  
She's a diamond on a landmine

Better watch your step  
She's a diamond on a landmine  
You'd better watch your step  
She's a diamond on a landmine  
Waiting to explode

You'd better watch your step  
She's a diamond on a landmine  
You'd better watch your step  
She's a diamond on a landmine

You better won't touch her  
She's a diamond on a landmine  
You'd better forget her  
She's a diamond on a landmine  
Waiting to explode
