I never thought the day would put a twist on what we thought was true

I smile out loud just because of the way you make me feel the way you do

Sprawled across my floor I wish that you would never have to le ave my door $% \left(1\right) =\left(1\right) +\left(1\right)$

But if the world held a grudge against you, I'd hold a grudge against the world...

A big scary world

I wear my soul upon my sleeve I wear my sole upon my feet G-Z

I'll make you believe in what you see, I'll make you believe in what you can't [x4]

I gotta find my elf her little wings

so she can fly above and sing

I don't know what I know but I know I want you to be with me

I see us walking hand in hand on the shore

I see us walking, I want more

But if the world held a grudge against you I'd hold a grudge against the world//

A big scary world

I wear my soul upon my sleeve I wear my sole upon my feet, G-Z

I'll make you believe in what you see, I'll make you believe in what you can't [x4]

The sun is coming up [x8]

Everyday I feel the same and I feel as though things will never, ever, ever change [6x]
