Circumstances

Billy Walker

That lonely night we got carried away with each other Remains with me though they'll never be another Warm drinks soft lights and slow dances When two blue people were the victim of circumstances Circumstances the wrong arms the right time Circimstances was her charms or just a wine Would it happen again if we had enough chances Or would we even want each other under different circumstances

What is done is over and just a memory the night they set a sig n for you and me Oh but the dreams this foolish heart romances Of the night when we were victim of circumstances Circumstances the wrong arms...
